NOTE: Due to lack of interest in the Hebrew Christian Calendar and lack of knowledge of its use and importance or even of its availability we are taking a middle road to present this pagan Gregorian calendar that shows only the Hebrew Holy Days, Feast and Solemn Assemblies. All pagan holidays have been omitted. Go to our website: www.biblebibliographies.net/hebrew_calender.html to see our article on "Interesting Facts concerning the Biblical calendar. We are no longer maintaining an annual Hebrew Calendar until more interest or the need arises. Thank you.

February 2013

Latin, to smoke; for purification.

24	25	26 Passover	27	28	29	30
31 Unleavened Bread Wave Sheaf						

Due to our continuing research and study in the Hebrew Christian Calendar, we have made a substantial change in establishing the beginning of the Hebrew Year. The policy now pursued is the New Moon sliver nearest the Vernal Equinox will establish Abib 1, instead of first New Moon following the Equinox, with Passover approximately 14 or 15 days later. This changes the Hebrew Year of 2012 from a 13 month to a twelve month year. We trust this version is more in line with Scripture and ancient policy.

April 2013

Greek goddess of Love, Aphrodite.
